**DEPUTIES REPORT**

**09/08/2020**

**The full time Officers will have several hours of overtime. We have several hours of training to make up from the COVID VIRUS. This training is MANDATORY.**

**The training will be on emergency vehicle operations, firearms training with all weapons, DWI tactics.**

**Last year, during all the budget meetings, my department was approved for several large ticket items. Now, under current management, I have been told that my budget is overspent. This also includes the overtime that we are presently experiencing due to COVID, vacations, and the part time not wanting to participate because of our hourly rate of pay offered. In turn, this causes OT for the full time.**

**The radios and radars that were approved last year for this year were already ordered. I have been advised that we have no monies in the budget, so I have called the company and asked that we get billed next year. I have worked hard and very much appreciate the support I have been given by this board to bring my department up to the proper standards. This helps us to work more efficiently and most of all safely.**

**Respectfully submitted,**

**Chief Deputy**

**Sgt, Jimmy Green**
